

Open Enrollment

What you need to know for the upcoming 2027-28 school year!

When can I apply for the 2027–28 school year?

The online application for the 2027–28 school year will open on March 1, 2027, at 8:30 a.m.

Do I have to tour the school before I can apply?

A campus tour with your student is a required part of the admissions process. We encourage families to schedule their tour before submitting an online application so you can experience our campus, learn more about ACS, and get to know our school community. Please note that the online application fee is non-refundable.

What information will I need to complete the application?

The online application will ask for basic parent and student information, along with a consent form that allows ACS to request records from your student's current school. More information and required documents, such as immunization records and a birth certificate, will be requested at the time of acceptance.

What if my child has never attended school before? What should I put on the Records Release form?

The Document Upload tab must be completed as part of the application. If your student is entering Pre-K, Kindergarten, or has been homeschooled, please enter "N/A" on the Records Release form before submitting your application.

How do I know if ACS received my online application?

Before submitting your application, make sure all tabs have a green check mark. You will then be prompted to pay the non-refundable application fee. Once your application has been successfully submitted, you will receive a confirmation email from ACS. If you do not receive a confirmation email, please log back into your online application to check whether any steps or required items are still incomplete.

Are spots given in the order applications are received?

We encourage families to apply early for the best opportunity to secure a spot. However, applications go through an admissions review process, and submitting an application does not guarantee admission.

I have submitted my online application. What happens next?

Once you receive your confirmation email, your online application has been successfully submitted and received by ACS. The Admissions Team will then contact you to schedule your student's baseline assessment. We encourage you to schedule the assessment as soon as possible to help ensure the best opportunity to secure a spot.

When will I know if my student has a spot?

Families will be notified of their student's admissions status by May.
